

NIDA MIRZA

QA Engineer | Manual & Automation Testing | Selenium | API & Performance Testing | AI-Assisted QA

Open to Remote Roles | mirzanida58@gmail.com | [GitHub: github.com/nidamirza9](https://github.com/nidamirza9) | [LinkedIn](#)

PROFESSIONAL SUMMARY

ISTQB-certified **QA Engineer** with **4.5+ years** testing scalable, user-facing web applications in **Agile/Scrum** environments for global clients across the **US, UK, and UAE**. Skilled in **manual, API, cross-browser, accessibility (WCAG), and performance testing**, with hands-on automation using **Selenium WebDriver and TestNG** and load testing using **Apache JMeter**. Builds custom QA tools with **Claude AI and Cursor** to speed up testing and improve accuracy — with a track record of cutting regression cycles and post-release defects. Using AI tools has helped reduce workload by **25%** and fasten testing processes.

PROFESSIONAL EXPERIENCE

QA Engineer — Horizontal Digital

Jan 2024 – Present

- Collaborate within **Agile** teams on requirement reviews, sprint planning, and retrospectives to align on deliverables.
- Execute end-to-end website **QA**, identifying and documenting defects using industry-standard bug tracking tools.
- Introduced **Selenium WebDriver** automation, **reducing regression testing time by 20%**.
- Led **10+ training programs** upskilling the team on QA best practices, while partnering directly with clients across the **US, UAE, and UK**.

Associate QA Engineer — Horizontal Digital

Jun 2022 – Dec 2023

- Performed manual and automated testing (functional, regression, UI, cross-browser) for large-scale projects, including **Cadence Bank**.
- Led **WCAG accessibility testing** and **Sitecore** personalization testing to improve compliance and user experience.
- Logged **100+ defects** in JIRA, contributing to a **15% reduction in post-release bugs**.

QA Intern — Horizontal Digital

Jan 2022 – Jun 2022

- Supported manual testing, defect tracking, and test documentation using **JIRA** and **QMetry**.

PROJECTS

Tutorials Ninja E-Commerce — Hybrid Automation Framework

Java, Selenium WebDriver, TestNG, Maven | github.com/nidamirza9/tutorialsninjaHybridFramework

- Built a **hybrid automation framework** using the **Page Object Model** with a shared Base Class for WebDriver setup.
- Added **data-driven** and **cross-browser testing** (Chrome, Firefox, Edge), with **Extent Reports** and **Log4j** for reporting.

AI-Powered QA Extensions — Built with Claude AI & Cursor

- **Redirection Testing Extension** — flags broken links and unexpected redirects across a site. github.com/nidamirza9/404-finder-extension
- **SEO Testing Extension** — audits titles, meta descriptions, and tags against SEO best practices. github.com/nidamirza9/seo-meta-extension
- **UI Validator & Content Comparator** — compares UI and content across builds to catch regressions. github.com/nidamirza9/ui-compare-extension
- **AI-Assisted Automation Demo** — AI-assisted test script generation and code review in Cursor. github.com/nidamirza9/ai-cursor-demo

CORE SKILLS

Testing: Manual, Regression, Smoke & Sanity, Functional, End-to-End, UAT, Cross-Browser, Cross-Platform(Browserstack & Lamdatest)

Automation & API: Selenium WebDriver, TestNG, Maven, Page Object Model (POM), Data-Driven Testing, Postman

Performance & AI Tools: Apache JMeter, Claude AI, Cursor

QA Tools & Languages: JIRA, Confluence, QMetry, Sitecore CMS, Git, Jenkins, Java, Python, HTML/CSS/JavaScript

Practices: Agile/Scrum, Test Case Design, Defect Management, Accessibility (WCAG), A/B Testing (CRO)

EDUCATION, CERTIFICATIONS & ACHIEVEMENTS

Computer Engineering (BE)— Madhuben & Bhanubhai Patel Institute of Technology | 2018–2022 | **CGPA: 9.02/10**

ISTQB Foundation Level • Python for Data Science (University of Michigan, Coursera) • Java Certification (HackerRank) • Generative AI (Google)

- “Raise the BAR Award” for defect identification and mentoring excellence
- Mentored 20+ ISTQB aspirants with a **100% first-attempt pass rate**
